

**MODE360° JUMBO IS A COMPACT STUDIO CREATED TO PHOTOGRAPH PRODUCTS IN HI-RES PACKSHOTS AND 360°/3D ANIMATIONS.**

**The MODE360° Jumbo concept uses:**

- Your Camera
- Software controlled, LED lit chamber
- Rotational Platform
- MODEPiX / MODEViD Software

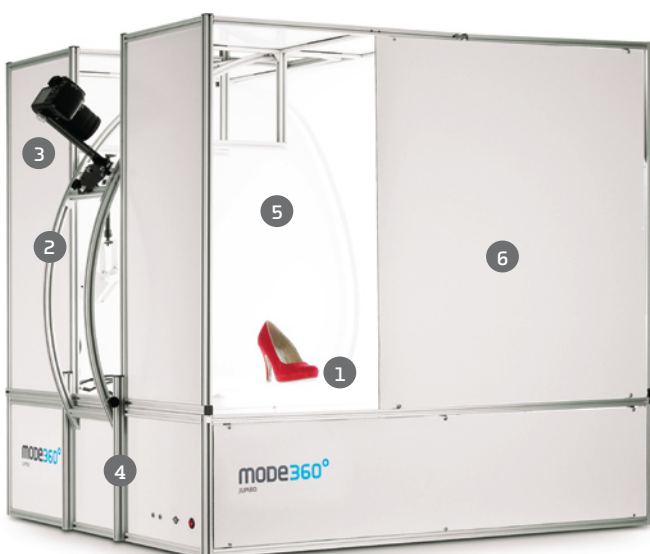

The system is fully automated and features an easy to use, intuitive software interface of our included MODEPiX and optional MODEViD software. In addition, the software also offers LED lighting control, editing features like background removal, pack-shots, presets, and quick online publishing to MODEViEW cloud and Youtube.

The software features allow quick hi-res images & video ready for online publishing in seconds.

The MODE360° Jumbo is a must have tool for creating product presentations in 360° and 3D for use in advertising, product brochures, websites, and online marketing campaigns, and YouTube etc.

**MODE360° JUMBO INCLUDED COMPONENTS:**

1. 360° rotating platform 90 cm in diameter
2. 3D arm for spherical images
3. Adjustable camera mount (zoom in, zoom out)
4. Adjustable rail for 3D arm (up and down)
5. Well Lit, Shadow Free chamber with controlled LED Lights (6500 K)
6. Side access doors

**BASIC SET CONTAINS:**

- MODE360° Jumbo
- Software (MODEPiX, 3DRT Flexi)
- Free [modeview.com](http://modeview.com) Cloud Account

**SOFTWARE**

The software bundle allows you to do the following:

• **MODEPiX\***

The ModePix software controls the LED lights inside the chamber, the rotating platform and the CANON EOS camera and parameters. It also offers features such as live camera preview; photo capture & editing; background removal, camera & light presets, watermarking, color correction, quick uploads and more.

• **3D Rotate Tool Flexi**

The 3D rotate tool allows you to save images captured with MODEPiX and save your presentations as FLASH, HTML5 and GIF files, with advanced features like direction controls, hot-spots.

- \* The optional MODEViD software upgrade has all the features of ModePIX and adds quick and smooth video capture and more advanced tools. A perfect tool for quick video ads and youtube reviews.
